- Translated mobile wireframes into responsive desktop interfaces for an educational wellness program, maintaining a cohesive design system across features and devices.
- Created a scalable YouTube thumbnail design system for a channel with over one million subscribers, ensuring visual consistency and strong visual hierarchy.
- Mapped and designed user flows for premium groups in an education wellness program, guiding users from application submission to group onboarding.

- Redesigned the Canvas course dashboard to improve usability, appeal, and clarity for college students and faculty.
- Increased student engagement to 1,000+ interactions by integrating a streamlined shortcut navigation system.
- Designed navigation buttons using accessibility-friendly color contrast and sizing to support an inclusive user experience.

- Exceeded weekly sales targets by 100%+ as a product division leader by analyzing merchandising potential and implementing action plans to optimize product placement in store ranking.
- Led monthly live streaming shopping sessions on the UNIQLO app and @uniqlousa Instagram, boosting user engagement to promote collaborations and curate seasonal style guides.
- Contributed product development insights by assessing product performance of existing products and suggesting new ideas influenced by customer insights, sales standings, and in-store observations.
